

An Australian Government Initiative

LIMESTONE COAST

STRATEGIC PLAN 2026-2030

WHO ARE WE?

Regional Development Australia Limestone Coast (RDALC) is a not for profit regional development agency. We work with business, community, and government leaders to grow the economy, attract investment, support local industries and improve liveability across the Limestone Coast region of South Australia.

OUR VISION

Limestone Coast: a regional powerhouse where people choose to invest, work, live and visit.

OUR PURPOSE

To improve the economic and social wellbeing of people and communities across the Limestone Coast.

WHAT DO WE DO?

WHAT IS OUR FOCUS?

INFRASTRUCTURE

We facilitate investment in infrastructure that sustains and grows our region's economy and population, while underpinning its liveability and visitor appeal.

PEOPLE

We support development of the skills, knowledge, capacities and productivity of our employers and workforce.

INVESTMENT

We collaborate to attract investment to our region and create the conditions to bring it to fruition.

ENVIRONMENT

We support our partners to maintain our environment as the backbone of a strong economy and a liveable region.

WHAT ARE THE OUTCOMES FROM OUR FOCUS?

INFRASTRUCTURE

We facilitate investment in infrastructure that sustains and grows our region's economy and population, while underpinning its liveability and visitor appeal.

- The region has clear priorities for future infrastructure investment that will drive innovation, economic growth and liveability.
- Industry has access to fit for purpose infrastructure to support economic activity, including road and rail networks, airports, water, telecommunications.
- The region has access to social infrastructure that underpins liveability, such as housing, child care, education and health care facilities.

PEOPLE

We support development of the skills, knowledge, capacities and productivity of our employers and workforce.

- The region has a skilled workforce to meet current and future needs.
- Employers have the skills, knowledge and tools to diversify and grow business.

INVESTMENT

We collaborate to attract investment to our region and create the conditions to bring it to fruition.

- The region has the information it needs to seize opportunities, attract regional investment and ensure competitive advantage.
- Collaboration between public and private organisations ensures that they are investment ready.
- The region acts on opportunities for innovation and value adding across existing industries, while attracting new industries and business opportunities that strengthen the regional economy.

ENVIRONMENT

We support our partners to maintain our environment as the backbone of a strong economy and a liveable region.

- Sustainable management of our natural assets, including water, supports economic growth.
- The region's resilience in the face of natural emergencies is strengthened.

HOW WILL WE MEASURE OUR IMPACT?

 Activity Based Indicators	
 Grant funding applications supported	 Business advisory services provided
 Participation in delivered events, workshops and learning activities	 Policy submissions and advocacy activities
 Social media activity and engagement	 Industry and community initiatives facilitated
 Business opportunities, stories and insights communicated	 Economic analysis and data insights provided
